

FISH CAT STREAMER XL-IR

The Streamer XL's short length and compact size make this boat great for making the transition from a float tube to a pontoon boat. The pontoons were redesigned for easier maneuvering with fins or oars. The 6 piece steel frame now includes an anchor system/motor mount and is more ergonomic. 6' aluminum breakdown oars, a mesh cargo deck, and adjustable foot bars round out the features of this entry level fishing machine.

FISH CAT 13

The Fish Cat 13 is an affordable two person fishing craft. It is constructed using 900 / 1200 denier PVC fabric, which makes this boat very durable. Two vinyl air chambers feature improved Summit valves to give you piece of mind when the going gets tough. The 11-piece breakdown aluminum frame includes taller seat pedestals for more comfortable seating position for the oarsman and the angler. Remove the front section of the frame and transform this boat to a solo craft.
