AFFORDABLE HIGH PERFORMANCE FLY RODS

- TFO LEFTY KREH SIGNATURE SERIES™ FLY RODS

Lefty Kreh **Signature Series™** two-piece rods now have a beautiful, translucent dark green finish and matte black aluminum reel seats with double up-locking rings. Our seven weight and heavier Signature Series rods have comfortable fighting butts and full wells grips. Smooth progressive blank tapers load fast but have the reserve power for distance, line speed and loop control. Each rod comes in a beautiful dark green TFO rod sock. This very affordable rod will out-perform rods costing much, much more. Available in 2 wt to 10 wt in a choice of 2 and 4 pieces.

TFO Lifetime Warranty.

- LEFTY KREH *TiCr* SIGNATURE SERIES™ 4 PIECE FLY RODS

Gary Taylor, FFF Master fly casting instructor, summed the *TiCr* Series up nicely:

*“Honestly, the very first thing that came to mind as I cast my way through the 5 to the 11 weight *TiCr* rods was that I never knew a fly rod could be this good. I never dreamed this was possible. After 30 days of almost daily evaluation and fishing, my opinion stands. Lefty writes still another chapter for us all.”*

Lefty designed this **TiCr Series** for performance. Fast, powerful and smooth, these rods will deliver a fly with distance and accuracy limited only by the angler’s skills. Our proprietary use of titanium and chromium dampens shock and helps protect the rod from errant flies. Hardware includes oversized super-hard titanium oxide stripper guides, premium grade cork, and matte black finished blanks with silver appointments and logos. Fighting butts are on 7 weights and heavier rods right up to the powerful 10 weight. Each rod features unique color-coded (by rod weight) alignment dots and comes with a rod sock and TFO cordura rod tube.

- LEFTY KREH *TiCr-X* SIGNATURE SERIES™ 4 PIECE FLY RODS

Wow!!!! This **TiCr-X Series** rod throws a line as flat as a billiard table with a loop you can throw through a screen door. I would certainly rate this as one of the very best eight weight rods I have ever cast. For any one who likes a fast action rod this does it in spades.

Lefty Kreh Upgraded components from the *TiCr* Series- including a rich blue blank, flor grade cork and newly designed aluminum reel seats with a uniquely cushioned reel hood. The 6, 8 and 9, 10 & 12 weight rods have a channel lock sliding rear hood with double locking rings and feature full-wells grips with fighting butts. Oversized titanium oxide first stripping guides on the 9 and 10 and 12 weight. The 5 weight rod has a reversed half-wells grip, single uplocking ring and a matte black graphite insert.

TFO Lifetime Warranty.

- TFO LEFTY KREH FINESSE SERIES™ 4 PIECE FLY RODS

Lefty Kreh **Finesse Rods** complement the TFO line by offering a more "traditional" taper and action for those who fish small flies and fine tippets on light lines. These are the ideal rods for meadow streams, limestone creeks, and spring creeks. At short to medium distances, Lefty Kreh Finesse rods cast effortlessly, turning over long leaders easily. The shorter lengths are perfect for tight quarters while the longer length rods will keep a back cast well above tall grasses. Lefty Kreh Finesse rods are handsomely appointed with Rosewood inserts on a double up-locking reel seat which nicely accentuates the deep olive finish, and comes with a rod sock.

- TFO *Ti* SPEY SERIES™ 4 PIECE FLY RODS

TFO **Spey** Rods are engineered for your casting ease. Designed as a medium fast action rod to be fished with the most common line in use today, the short belly line. Available in 6 to 10 weight. TFO Spey Rods come with a cloth rod sock and our Unconditional Lifetime Warranty.

- TFO LEFTY KREH BLUEWATER™ 3 & 4 PIECE RODS

These hybrid deep sea fly rods use -Glass for heavy lifting in combination with IM6 graphite for exceptional casting ability. If you're chasing marlin, tuna, or sailfish these Temple Fork **Bluewater** Fly Rods will survive the battle. The blank goes through the TiCr coating process twice, adding power and durability. Components include uplocking reel seats, flor grade cork, a full wells grip with a fore grip and a unique blue granite finish. The Light Duty rod consists of snake and titanium-oxide stripping guides; the Heavy Duty rod has aluminum oxide inserts on all guides including the tip tops. Bluewater rods come with a cloth rod sock. Available in 10 to 17 weight.
